

MIAMI-DADE COUNTY, FLORIDA
Special Obligation Bonds
(Miami-Dade Fire and Rescue Service District)

SECURITY FOR THE BONDS

General Obligation Pledge

The Miami-Dade Fire and Rescue Service District Special Obligation Bonds (the "Bonds") are payable from unlimited ad valorem taxes levied on all taxable property in the Miami-Dade Fire and Rescue Service District (the "District") (excluding exemptions as required by law) without limitation as to rate or amount. The direct annual property tax provided to pay the Bonds is required to be levied upon all District property, except property of such nature as may be exempt from taxation under the provisions of the Constitution and laws of the State of Florida (the "State"), and provision is required to be included and made in the annual budget and tax levy for the levy of such taxes. The ad valorem tax levied for payment of the Bonds may be adjusted in any year for excess moneys on deposit in the Principal and Interest Account, including investment earnings on such Account; provided, that moneys on deposit in said Account, along with the taxes to be collected for that year, after allowance for anticipated delinquencies in collection, will be sufficient to assure the prompt payment of principal of and interest and redemption premium, if any, on the Bonds which is due prior to the time that the proceeds of the next annual property tax levy will be available.

THE DISTRICT

Background

Miami-Dade County, Florida is the largest county in the southeastern United States in terms of land area and population. The County currently covers 2,209 square miles and is located in the southeastern corner of the State. The District services 84% of that area or 1,865 square miles. Within the County, there are 34 municipalities. In 2003, the population of the County was estimated to have been 2,343,000. The population within the District is estimated to be 1,595,000.

As a result of an amendment to the State Constitution approved in a statewide general election in 1956, and a County-wide election to approve a new charter (the "Charter") in May 1957, the County has home-rule powers, subject only to the limitations of the Constitution and general laws of the State. In effect, the government of the County is endowed with certain powers effective throughout the entire County, including the 34 municipalities, and a municipal government for the unincorporated area of the County. The County has not displaced or replaced the municipalities, but supplements them. The County is empowered to take over particular functions of a municipality's operations if its services fall below minimum standards set by the Board of County Commissioners of Miami-Dade County, Florida (the "Board"), or with the consent of the governing board of the municipality.

The County provides on a County-wide service basis, certain functions which include police services, that complement the municipal police services within the municipalities, a consolidated two-tier court system, a unified public transit system, a combined public library system, garbage and trash collection and disposal services to the unincorporated areas, County-wide property appraisal and tax collection, minimum enforceable standards in areas such as environmental resources management, building and zoning, consumer protection, health, housing and welfare. The County provides a uniform system of fire protection and emergency medical services for the District, which encompasses the unincorporated area of the County and 29 of the 34 municipalities in the County. The Cities of Miami, Miami Beach, Hialeah, Coral Gables and Key Biscayne provide or contract for their own fire services and emergency medical services.

The Miami-Dade Fire Rescue Department

With over 2,079 employees located at 56 fire rescue stations and several administrative facilities, the Miami-Dade Fire Rescue Department (the "Department") provides fire suppression and emergency medical service to approximately 1.6 million people who reside in 29 municipalities and the unincorporated area of the County, encompassing a District of approximately 1,865 square miles.

Along with basic fire suppression and emergency medical service, the Department maintains: (a) three (3) Air Rescue helicopters to transport injured persons to area trauma hospitals; (b) a Hazardous Materials Bureau and a Marine Services Bureau; and (c) two (2) specialized airport Crash-Fire-Rescue vehicles. The Department assigns an entire division to Miami International Airport. The Department also maintains an International Disaster Response Team, which includes a K-9 unit trained to locate people trapped in collapsed buildings. The Department's firefighters are experts in vehicle extrications, and are specially trained in rope rescue, confined space rescue, high-rise firefighting, and mass casualty response.

The Director of the Department (the "Director"), along with his executive staff, oversees the day to day operations of the Department. The executive staff consists of three (3) Deputy Directors, one (1) civilian Assistant Director of Administration and five (5) Assistant Chiefs in charge of operations and various administrative functions. The Department is further divided into divisions, battalions and bureaus run by both uniformed officers and civilian managers. Currently, the Director reports to an Assistant County Manager, and through him, to the County Manager, who has the power to appoint and remove the Director.

The Miami-Dade Fire and Rescue Service Board

On September 2, 1980, the Board enacted Ordinance No. 80-86 (the "1980 Ordinance") creating a special purpose district called the "Miami-Dade Fire Rescue Service District". Prior to the 1980 Ordinance taking effect, a majority of the Miami-Dade County electorate approved the 1980 Ordinance in a special election held on September 9, 1980. Pursuant to the provisions of the Charter in effect at that time, the 1980 Ordinance established the Board as the governing body of the District, authorizing the Board to adopt the District's operating budget and provided the District the authority to levy an annual ad valorem tax not to exceed 3 mills upon all taxable property within the District for operating purposes.

In 1986, the County voters approved an amendment to the Charter that removed the Board as the governing body of the District and replaced the Board with the Miami-Dade Fire and Rescue Service Board (the "Fire Board"). The Fire Board was composed of 5 members elected by the registered voters within the District. Each member of the Fire Board was to be elected from a single member district.

The Fire Board was abolished in 2002 by a popular vote of the residents of Miami-Dade County.
